

Tavola della distribuzione normale

Area (in percentuale) sotto la normale standard compresa tra due valori $-z$ e $+z$. I valori **in grassetto** indicano i valori di z che corrispondono ad aree tipiche.

z	Area	z	Area
0.00	0.00	1.645	90
0.05	3.99	1.65	90.11
0.10	7.97	1.70	91.09
